TOP 10 REASONS TO CHOOSE PRO-PIPE FOR CROSS BORE INSPECTION & PREVENTION

Gas, electrical and telecom/fiber utilities—as well as their subcontractors and general contractors face unique challenges when it comes to maintaining the integrity and safety of underground infrastructure. Cross bores, in particular, pose a significant risk, potentially leading to costly damages or even fatal accidents. In this guide, we'll explore the top 10 reasons why utility providers and their contractors choose Pro-Pipe for cross bore inspection and prevention and consider us a trusted partner for ensuring the reliability and safety of their underground infrastructure.

1 INDUSTRY EXPERTISE IN GAS UTILITY INFRASTRUCTURE

With over 30 years of experience, Pro-Pipe is the trusted leader in storm drain and sewer infrastructure inspection, assessment, rehabilitation and cross bore prevention, specifically tailored to the needs of utility providers and contractors.

3 CUTTING-EDGE TECHNOLOGY

Pro-Pipe employs the most advanced closed-circuit television (CCTV) and Hydrovac fleet in the nation, ensuring accurate detection and prevention of cross bores. Our leading-edge technology solutions are specifically designed to meet the rigorous demands of underground utility infrastructure.

5 CERTIFIED PROFESSIONALS AND STRINGENT SAFETY CULTURE

Our team of highly recognized, customer-centric industry veterans is dedicated to safety and excellence. We prioritize staff, crew and public safety through thorough planning, safety policies and compliance with state, federal and OSHA requirements.

2 COMPREHENSIVE CROSS BORE SOLUTIONS

From assessment to rehabilitation, Pro-Pipe offers a complete suite of services to address cross bore inspection and prevention needs. We understand the unique challenges faced by utility providers and contractors and provide tailored solutions to mitigate risks effectively.

4 INDUSTRY-LEADING CROSS BORE PREVENTION PROGRAM

We offer one of the nation's leading cross bore programs for gas utility owners, providing comprehensive inspection, locating and data record management services. Our program includes thorough underground pipe inspection using advanced technology to ensure the safety and integrity of underground utility infrastructure.

6 CUSTOMIZED SOLUTIONS FOR EVERY PROJECT

At Pro-Pipe, we understand that each project is unique. That's why we offer customized solutions tailored to meet the specific cross bore inspection and prevention requirements of utility providers and contractors. Whether it's assessing legacy projects or conducting post-construction inspections, we have the expertise to deliver.

7 TRANSPARENT COMMUNICATION AND COLLABORATION

We believe in clear and transparent communication throughout the project lifecycle. Our team collaborates closely with utility providers and contractors to ensure their needs are met and expectations exceeded at every step of the process.

9 GIS DATA INTEGRATION FOR ENHANCED DATA MANAGEMENT

Our GIS-based data integration process ensures comprehensive and accurate data management throughout the cross bore inspection program. With cloud-based technologies and a user-friendly online portal, utility providers and contractors have easy access to their inspection data, enhancing operational efficiency and safety.

8 PROACTIVE RISK MANAGEMENT

Pro-Pipe takes a proactive approach to risk management, helping utility providers and contractors identify and mitigate potential risks before they escalate. Our comprehensive risk assessments and recommendations enable informed decision-making and proactive risk mitigation strategies.

10 COMMITMENT TO LONG-TERM SAFETY AND RELIABILITY

Pro-Pipe is committed to building a strong and safe infrastructure for communities nationwide. Our dedication to quality services, safety and reliability makes us the preferred choice for utility and contractors seeking cross bore inspection and prevention solutions.

CHOOSE PRO-PIPE AS YOUR TRUSTED PARTNER FOR CROSS BORE INSPECTION AND PREVENTION

Experience the peace of mind that comes with unmatched expertise, cutting-edge technology and a commitment to safety and reliability. Contact us today to learn more about how we can support your underground utility infrastructure needs.
